Up-rise clothing is mainly made out of HEMP and Organic cotton.  
We choose to work with hemp because of the many **advantages** and eco-friendly properties...

Here just some of them:  
Hemp fibre has been used for thousands of years to produce textiles!  
This plant has the strongest natural fibre and is very environmental friendly!  
Hemp clothing is very durable in every way!  
Up-rise/hemp clothing keeps you cool in summer & warm in winter.

We work with partners who take care about high **ethical values** in human rights and environmental issues.

All our clothes are produced in a factory that is member of the **Fair Wear Foundation**  
& uses only **certified Organic Cotton** in the different mixed fabrics.

The combination of eco-friendly fibers, high quality, fair production and up to date urban designs,  
makes 'Up-rise' clothing unique and ready to wear for people who care...  
Let's spread the good vibes and enjoy nature!  
Thanks & Greetings,

Peter, Nynke & the 'Up-rise' Team
